Maxwell® RSC 48 Standard Service Agreement

The Maxwell® RSC Standard Service Agreement covers all parts, labor and shipping to and from our depot repair location as well as a loaner instrument upon request. If your Maxwell® RSC Instrument needs repair, we will provide a box for shipment of the instrument back to our service facility. We will repair it and return it performing to original factory specifications. Preventive Maintenance service is available separately.

Maxwell® RSC 48 Premier Service Agreement

The Maxwell® RSC Standard Service Agreement includes all parts, labor and shipping to and from our depot repair location as well as your choice of a loaner instrument within 1 business day or on-site service visit by a factory-trained service technician within 2 business days. Additionally, it includes one annual Preventive Maintenance event per year, which can be performed by returning the instrument to an authorized service center or by an on-site visit by a service technician. Additional Preventive Maintenance service is available separately.

Maxwell® RSC 48 Preventive Maintenance

In order to keep the system operating at peak performance, we recommend that Maxwell® RSC Instruments receive a Preventive Maintenance check after 12 months of use. During this procedure, our qualified service personnel test the instrument, check parts for wear and replace them as needed. Additionally, the system is aligned and performance is verified. Documentation for your files is provided. The preventive maintenance service is performed by returning the instrument to an authorized service center.
